

17—21.2(231) Purpose. This chapter sets out client eligibility, covered services, program administration and program standards to assist clients in coordinating the use of the long-term living continuum which ranges from the independent access of congregate services to the delivery of support services in the home or through facility-based care for the clients served. The service of case management is designed to promote and support independent living of older Iowans funded through Title III (Grants to State and Community Programs on Aging) of the OAA or state funds distributed to the area agencies on aging (AAA) based upon their current area plan.
